Prime Controls Selected as 2015 Business of the Year Honoree

October 21, 2015, Dayton, OH – Prime Controls, a manufacturer of double metal sheet sensors and controls for the can making, automotive, appliance and other metal forming industries, was named by the Dayton Business Journal as one of their 2015 Business of the Year honorees. The Business of the Year Awards is one of the most coveted titles of the year, celebrating the region's best in business.

Succeeding their win of Overall Excellence at the Manufacturer of the Year awards, Prime Controls was nominated under the Manufacturing Business of the Year category for the 2015 DBJ Business of the Year Awards. Prime Controls is among the top 4 finalist to be hand-picked by guest judges and the DBJ Editorial Board for this award. The winner will be announced at a black-tie gala dinner on November 12th, where business leaders from prestigious businesses small and large will join in the celebration.

"We are ecstatic to be recognized by our community for providing superior quality products and service to our customers," says Beth Graves, President of Prime Controls. "We are proud and fortunate to be a part of a great community that is focused on and supports entrepreneurs and small businesses. Just to be nominated for such a prominent award is an honor itself," continues Beth.

Prime Controls, Inc., located in Dayton, Ohio USA was founded in 1992 and today, is the world's foremost Double Metal Sheet Detector supplier, providing products and services to the can making, automotive, appliance and other automated sheet metal industries. A Prime Controls detector has inspected virtually every food and beverage can in the world, with a pull-tab end. Prime Controls is committed to the development of new products with the most advanced technology available. We value each and every one of our customers and strive to provide solutions that meet their needs.
