***We Did It Again!
Prime Controls Ranks on the 2014 Inc. 5000 List
of America's Fastest Growing Private Companies***

August 27, 2014, Dayton, OH – Prime Controls has done it, again! *Inc.* magazine ranked Prime Controls, sensor and control manufacturer, number 2784 on its 33rd annual Inc. 500|5000 list, an exclusive ranking of America's Fastest Growing Private Companies. This is the company's second consecutive year on the list. Companies such as Microsoft, Zappos, Oracle, Facebook, and many other well-known names gained early exposure as members of the Inc. 500|5000.

"There are really no words that can be said to express the extreme gratitude our entire team feels toward our customers worldwide, whom without, this would not have been possible. We give this win back to them, you know who you are," says Beth Graves, President of Prime Controls.

"Our end goal has never been solely about growth. It is ultimately about supporting our customers to the best of our ability, by listening intently to their needs and providing sensing and controls solutions to meet those needs. Growth is just an added benefit of those activities," continues Beth.

Prime Controls, Inc., located in Dayton, Ohio USA was founded in 1992 and today, is the world's foremost Double Metal Sheet Detector supplier, providing products and services to the can making, automotive, appliance and other automated sheet metal industries. A Prime Controls detector has inspected virtually every food and beverage can in the world, with a pull-tab end. Prime Controls is committed to the development of new products with the most advanced technology available. We value each and every one of our customers and strive to provide solutions that meet their needs.
